**Board Coordinator:** John Jachetta

**Committee Members Rotating Off:** NA      **Suggested Replacements:** NA

### **2011 Summary of Activities (through January 2012)**

The title abstract submission software has been developed and is being utilized by the regional weed science societies as well as WSSA. The software developed by David Krueger has been well received. This software will result in substantial savings to WSSA compared to the previous method of renting software for this purpose.

This committee can be disbanded. Any further modifications to the software can be coordinated through the website committee and the webmaster.
